

Better Together Matthew Crossey

Everybody join in

And I'll think we begin

If everyone plays a part

We will make a great start

Cause we're better together

Through every endeavour

We're stronger and bolder

Now we're getting older

CHORUS

And whatever I do it's always better with you

It's always better with two

And when two become four and when four
become more

Its even better for sure

It's the best I can be

When my friends are with me

We're working hard as a team

On all our hopes and our dreams

Cause we're better together Through every
endeavour

We're sharing the journey

And happy we're learning

CHORUS

And whatever I do it's always better with you

It's always better with two

And when two become four and when four
become more

Bridge

Cause we're better together

Through every endeavour

We're stronger and bolder

Now we're getting older

CHORUS
