

If We Could Rule The World Matt Baker

CHORUS

If we could rule the world x2

We'd make such better place, put a smile on
everyone's face

Together save the human race, if we could rule the
world.

Baba ba dada babababa

Food should be for everyone share it with them all

Help them grow their very own see their crops
grow tall

Reach our hands to those in need

Help to cure disease

Find a place they call their home

Make them feel at ease

CHORUS

Conflict is a bad idea let's not hide in fear

Take away the guns and bombs we don't want
them here

Stand as one and join our hands, harmony we
bring

Lets end hate and war for good join us now and
sing

Get up come together, we'll do well forever

Open up put down your phone

You will never feel alone

Two Parts

Get up come together (together we can do it)

We'll do well forever (together we belong)

Open up put down your phone (we can change
the world)

You will never feel alone

Together we are strong x2 CHORUS

If we could rule the world x2

We'd make such better place, put a smile on
everyone's face

Together save the human race, if we could rule the
world.

If we could rule the world
