

Live My Life To The Full Andrew Smith

SOLO JODY- Do you ever feel like you're all alone?

Like you're trapped in the dark and you've lost all hope

You try to guide me but I can't see your face.

You shout out loud but I can't hear your voice

Do you ever feel like you're all alone?

Then out of the darkness

A flame that is timeless

A reminder of what I could be

And then I feel complete with an unbroken heartbeat and I know you're here next to me.

Oooo x2

ALL-Gonna build myself and keep on growing

Gonna live my life and seize this moment

And I won't let the good things pass me by

Come from the shadows, now its time to shine

Gonna live my life and seize the moment.

Then out of the darkness

A flame that is timeless

A reminder of what I could be

And then I feel complete with an unbroken heartbeat and I know you're here next to me.

I'm gonna live my life to the full

I'm gonna live my life, like I've always wanted

Yeh live my life to the full

And I've got you next to me

X2

INSTRUMENTAL

I'm not afraid, it's time for change, there's a new plan for me!

I won't give up, I've got your love and you are next to me

I'm not afraid, it's time for change, there's a new plan for me!

And I've got you next to me

I'm gonna live my life to the full

I'm gonna live my life, like I've always wanted

Yeh live my life to the full

And I've got you next to me

Ooo x2

And I've got you next to me
