

Walk My Journey Matt Baker Refugee  
project

1. You were forced to leave home  
To run far away  
It's not what you wanted  
You wanted to stay  
Now you've arrived in our land  
But you don't know the faces  
The culture or traditions  
The songs or the places

*It wasn't your choice  
To start out anew  
But we have a choice...  
We will help you  
We will help you*

2. We grow as we walk  
We become what we see  
There's so little difference  
Between you and me  
You're humans just like we are  
You're not just refugees  
And you deserve a haven  
The right to be free

*It wasn't your choice  
To start out anew  
But we have a choice...  
We will help you  
We will help you*

3. We need the same thing  
A place to call home  
To feel loved, safe and wanted  
Never alone  
We will make you welcome  
We will hold your hand  
And see that your children  
Are safe in our land

*It wasn't your choice  
To start out anew  
But we have a choice...  
We will help you  
We will help you*
