

Walk My Journey Song Lyrics

1. You were forced to leave home
To run far away
It's not what you wanted
You wanted to stay
Now you've arrived in our land
But you don't know the faces
The culture or traditions
The songs or the places

*It wasn't your choice
To start out anew
But we have a choice...
We will help you
We will help you*

2. We grow as we walk
We become what we see
There's so little difference
Between you and me
You're humans just like we are
You're not just refugees
And you deserve a haven
The right to be free

*It wasn't your choice
To start out anew
But we have a choice...
We will help you
We will help you*

3. We need the same thing
A place to call home
To feel loved, safe and wanted
Never alone
We will make you welcome
We will hold your hand
And see that your children
Are safe in our land

*It wasn't your choice
To start out anew
But we have a choice...
We will help you
We will help you*
